

Scientific Electro Systems Limited

Environmental Policy

Scientific Electro Systems Limited, hereafter referred to as the company, recognises its responsibilities to the environment; we are aware that our activities have an impact on the environment and seek to minimize this.

We respect the principle of Sustainable Development and aim to work in a way that meets the needs of today's generation whilst ensuring that future generations can also meet their needs.

We are committed to:-

- Fulfilling compliance obligations
- Enhancing our environmental performance
- Continual improvement in regards to environmental impacts

Specific areas where we are working to reduce our environmental footprint:-

- Minimizing waste produced
- Minimizing our energy use
- Training staff
- Encouraging greener transport options
- Working with our staff and building users to make all of the building's operations as environmentally friendly as we can, heating and lighting our premises efficiently
- Investigating how much waste we generate, using segregation to enable higher rates of recycling
- Looking at what we buy – sourcing goods with low environmental impact and working with local suppliers wherever possible

We will review this Environmental policy annually to check it is up to date and to make sure we are looking at new areas for improvement.
