Environmental Policy

Scientific Electro Systems Limited recognises it's responsibilities to the environment; we are aware that our activities have an impact on the environment and seek to minimize this.

We respect the principle of sustainable development and aim to work in a way that meets the needs of today's generation whilst ensuring that future generations can also meet their needs.

We are committed to:-

- Fulfilling compliance obligations
- Continual improvement
- Protecting the environment and preventing pollution

Specific areas we are working to reduce our environmental footprint:-

- Minimizing our waste produced and disposing of it responsibly
- Reducing our water and energy usage
- Encouraging greener transport options
- Reducing our carbon footprint
- Using responsible suppliers and working with local suppliers wherever possible

We will review this environmental policy annually to check it is up to date and to make sure we are looking at new areas for improvement.
