Health & Safety Policy

Scientific Electro Systems Limited recognises its responsibilities to ensure, so far as is reasonably practicable, the health, safety and welfare of all employees, trainees and other persons who may be affected by its activities. Health and safety must be considered by all employees as being of paramount importance to the company. We will seek to promote and develop a positive attitude to health and safety by ensuring that safety features form an integral part of the way the company delivers its services. It is also the aim of the company to take all reasonably practicable steps to ensure that the risk of damage to client's property is minimised.

These objectives will be achieved by:-

- Ensuring compliance with the Health and Safety at Work Act (HSAW) 1974 and all other legislation which relates to the activities carried out by the company
- Ensuring that the necessary resources including PPE are provided for the health, safety and welfare of staff, visitors and customers
- Providing health and safety training to all employees
- Regularly reviewing new health and safety resource requirements including PPE and training
- Ensuring that all employees contribute to making a healthy and safe work environment and are regularly reviewed for performance
- Ensuring the effective communication of relevant information to all employees throughout the company and to those who may be affected by its activities

This Health & Safety Policy and any documentation produced under it supersedes all previous Health & Safety Policies and will be reviewed annually and added to or modified as required.
