Accredited Laboratory Policy

It is the policy of Scientific Electro Systems Limited, to supply a professional, skilful and diligent service to all customers.

Our services will meet the requirements of ISO/IEC 17025:2017 for which accreditation is held. Scientific Electro Systems Limited will only perform calibrations which are within the limits of the current schedule of accreditation.

We are committed to: -

- Fulfilling quality requirements
- Fulfilling the requirements of relevant standards
- Providing a reliable calibration service
- Fulfilling customer requirements
- Continual improvement
- Impartiality
- Confidentiality
- Ensuring the validity of results

We demonstrate our commitment via regular: -

- Staff training
- Competency reviews
- Internal audits
- Management review meetings
- Interlaboratory testing
- Intralaboratory testing
- Spreadsheet validation

We will review this laboratory quality policy annually to ensure that it reflects our current working practices and to make sure we are looking at new areas for improvement.
